

# New Lockwood Closed Shackle Padlocks

ASSA ABLOY

ASSA ABLOY's Lockwood range of closed shackle padlocks now include the latest high security 234 and 256 series models. With less of the shackle exposed, these heavy duty padlocks are designed for better protection against attack and corrosion. When combined with a suitable Lockwood hasp and staple or chain these locks can be used in a wide range of applications from farm machinery to securing trailers or marine equipment.

## 234 & 256 Padlock Features & Benefits:

- Heavy duty, solid steel case extrusion
- 8.7 & 11mm chrome molybdenum steel alloy shackle
- Quick Change™ replaceable shackle
- Double ball locking
- Rekeyable - CYL4 One Key Security compatible
- Self latching function
- Easily converts from snap shut latching to key retention function
