# DELOITTE CENTRE

» Project Credits:  
Location: Queen Street, Auckland  
Architects: Warren & Mahoney (NZ) and Woods Bagot (Aust)  
Architectural Hardware Supplier: Wilson & MacIndoe  
Builder: Multiplex NZ Ltd

Lockwood Artefact 200 Series

Lockwood 7726 Door Closer

Lockwood 146 Pull Handles

By integrating the 1930's street frontage of the Jean Batten Building with premium 21st Century urban design, the new 200 million dollar DeLoitte Centre in CBD Auckland is an impressive building....

and an example of modern architecture that makes room for nostalgic design character from yesteryear. The Prime Minister, Rt. Hon. John Key, cut the ribbon in March 2010 officially opening this significant commercial high rise in Auckland. Not only is the premium-grade office tower a state-of-the-art structure, but also an admirable Auckland first, achieving a 5 star Green Star rating from the Green Building Council.

ASSA ABLOY hardware mainly features at the core levels of the building with popular Lockwood 7726 and 7714 hydraulic door closers and 146 Pull Handles in use, achieving guaranteed high quality with clean lines and modern aesthetics. Lockwood Artefact 200 Series stainless steel plate furniture with concealed fixings were used in conjunction with the Symphony Lever. The 3573 Mortice Lock is also used amongst fittings within the building. Additionally, ASSA ABLOY Besam supplied twelve automatic doors within the centre.

# CORONET PEAK

The multimillion dollar base building at Coronet Peak has received well deserved praise from skiers and riders, as well as being recognised as a superior facility by the New Zealand Institute of Architects (NZIA).

Designed by Michael Wyatt, the project won a Southern Architecture Award in the commercial category from the NZIA in November 2008.

Development of the new base building began in October 2007 and opened in time for the next snow season. The building itself was described by judges as looking "rather like a big hawk, with its wings outstretched, facing the slopes. The aim was to achieve a very smart flow of people from the entrance way to payment area, on to hire facilities and up to the ski field. The outcome works like an airport and is very successful."

Architectural hardware supplier, Henry and Kemp, specified the proven and trusted Lockwood 3572 vestibule mortice locks were used in conjunction with 1800 Series square end mortice latch furniture. Lockwood stainless steel 7726 door closers, with delayed action, adjustable backcheck, speed controls and overload protection, were also used for door control. 530 and 3572 digital locks were used for their ease of function and security.

# HARDWARE SPECIFICATION SERVICE

We specify door and window hardware. One less job for you to handle.

ASSA ABLOY provides a free hardware scheduling service that is utilised by many architectural practices, construction companies and end users to assist them in dealing with the difficulties involved in compiling their door hardware documentation.

ASSA ABLOY's specification service can take many forms including door by door hardware schedules, preparation of specification briefs, providing door or room data sheets, or assisting the client with their preparation of information for their own documentation format.

ASSA ABLOY's free specification service, in combination with the expertise of over 20 consultants New Zealand wide and the ASSA ABLOY product range, brings integrity, experience and professionalism to door hardware specifications whilst saving you time and effort.

For more information on ASSA ABLOY's free specification service contact your Representative or Customer Services on 09 622 4804 or email [nzarchitectural@assaabloy.com](mailto:nzarchitectural@assaabloy.com).

## ASSA ABLOY BRINGS YOU LOCKCASE 2010

ASSA ABLOY is touring the country during October and November to bring you LockCase 2010.

LockCase 2010 showcases the latest developments ASSA ABLOY New Zealand has to offer and will inform you of our plans for products and services in the near future.

We will be visiting 11 locations around the country\* and hope to see as many of you as possible. A number of new products will be on display and our staff will be on hand to provide relevant information and answer any questions you might have.

LockCase 2010 will run between 4.30pm – 7.00pm with light refreshments provided and travel vouchers to be given away. A great opportunity to catch up with your industry colleagues, you won't want to miss out!

If you're interested in attending LockCase 2010, please get in contact with your ASSA ABLOY representative for more information.

\*Visiting: Whangarei, Auckland North, Auckland Central, Hamilton, Tauranga, Napier, New Plymouth, Wellington, Nelson, Christchurch and Dunedin.
