INTERLOCK ALBANY ENDEAVOUR SLIDING DOOR LOCK

October 2010 saw the release of the Albany Endeavour Sliding Door Lock. The Albany Endeavour features the improved functionality that the Endeavour chassis provides, whilst retaining the popular Albany styling. Using the standard Albany routing pattern the Albany Endeavour is equally suited to either “new build” or retro fit installations.

See inside for more details

Albany Endeavour Sliding Door Lock

INTERLOCK™

ASSA ABLOY

Features and benefits:

- Red deadlock indicator on internal handle activates when key deadlocked (deadlocking version only)
- Opposing anti-lift beaks for added security
- Anti-slam pin protects locking beaks from accidental damage
- Retrofittable – easily replaces most sliding door locks (routing pattern is the same as Albany)
- Non-handed lock chassis with intuitive downward snib motion to unlock
- Available with internal D handle
- Can be keyed alike with One Key Security
- Available with 5-pin, or 6-pin cylinders when required
- Made in New Zealand

Specifications:

- Surface mounted suitable for most aluminium and timber sliding doors
- Standard screws suit door thickness from 19mm-49mm

Open the Door to Remote Entry

LOCKWOOD

ASSA ABLOY

The new Nexion® Vision Keyless lockset combines security with convenience at the touch of a button. Setting a new benchmark in residential locking, the Nexion® Vision Keyless lets you unlock your front door via a remote control. So coming home with hands full of shopping is no longer a problem!

- Easy to add remote controls
- **SafetyRelease™** to minimise the risk of being locked in
- Choice of 4 designer handles and 2 finishes
- Exclusive **LockAlert®** indicator shows the lock mode at a glance
 - Secure Mode - Locked from the inside and outside
 - Safety Mode - Locked from the outside, free to exit from the inside
 - Passage Mode - Unlocked from the inside and outside

LockAlert® Status Indicator:

Save Time and Effort with Velocity

SUPER FAST SUPER EASY

SUPER FAST installation means Velocity can be mounted to a door, up to three times faster than traditional door furniture. Sets are supplied pre-assembled, which means fiddling with loose screws and spindles are a thing of the past. Screws align through the rose, removing the need to locate them blindly through the door.

A simple twist of the rose, a quick tighten of screws and the levers are installed! Increase your efficiency – use Velocity on your next project.

- Choice of 4 designer handles and 2 finishes
- Fixing screws are concealed
- Levers are non-handed
- Passage, Privacy and Dummy options available

Lockcase 2010 Follow Up

ASSA ABLOY was proud to make its way throughout New Zealand during October and November last year to bring LockCase 2010 to customers. As part of an ongoing commitment to customers, LockCase 2010 was an evening designed for up close and personal product showcasing from ASSA ABLOY staff to customers and an opportunity to catch up with industry colleagues. Several new and upcoming innovations from ASSA ABLOY were displayed.

ASSA ABLOY was pleased to see great turn-outs to the 11 events held. There were many smiles on the night, but none more so than on the faces of the lucky winners who received generous travel vouchers. A total of \$7000 worth of travel vouchers was given away.

ASSA ABLOY hopes to build on the success of LockCase 2010 and looks forward to presenting LockCase 2011.

New Timbafold

ASSA ABLOY New Zealand has introduced new versions of the Timbafold hangers, guides and Timbafold head track.

The following changes have been made to improve the performance of the Timbafold system:

- Reprofiled head track
- Thicker pivot plates on the hanger and guide (now total of 12mm – was 8mm)
- Larger rivet on pivot plates

The phase-out of the old style Timbafold track will be completed by 28th February. From the 1st of March, the old style track H280A-##, will no longer be available.

Only limited stocks will be held by ASSA ABLOY of the old style pivot packs, AP3801 and AP3802, so please note that if you require 10 or more, there will be a 20 day lead time. There are also new capacity specifications for old style pivot packs:

Maximum Panel Height: 2100mm

Maximum Panel Weight: 30kg (or 20kg for a free swinging door)

Maximum Panel Width: 760mm (or 660mm for a free swinging door)

Ordering the New Hangers & Track

Part Number	Description
A280A - ##	Aluminium Track
AP3803	Pivot Pack Left hand
AP3804	Pivot Pack Right Hand

Denotes the length of track
20 = 2Mtrs
30 = 3Mtrs
40 = 4Mtrs
60 = 6Mtrs

If you have any questions please contact either your ASSA ABLOY Representative or our Customer Services Team on (09) 415 8031.

WIN!

Bangers and Beer Competition

Enter ASSA ABLOY's Bangers and Beer competition to win a mouth-watering BBQ shout with the famous ASSA ABLOY BBQ for you and your workmates. Your Rep will bring along the beers, bangers, barbecue and of course some Wattie's tomato sauce. All you need to do is answer the simple question below to be in the draw.
