

# INTRODUCING THE REVOLUTIONARY PENTAGON™ SERIES MORTICE LOCK

ASSA ABLOY

ASSA ABLOY is proud to bring you the new Lockwood Pentagon Series Mortice Lock. Following extensive market research, the iconic Lockwood 570 Mortice Lock has undergone a ground up redesign which provides features that are set to revolutionise the industry.

Pentagon Series locks provide the latest in design and functionality. These locks have various latching functions which can be operated by key or handle outside and by turnknob, key or handle inside.

For ease of selection order primary lock (L3P72SS or L3P82SS). These locks can then be easily adapted to suit the function required without removing the lock from the door, by adjusting the Pentagon hub selector, and cylinder function selector.

ASSA ABLOY will be launching the Pentagon Series Mortice lock in New Zealand on 17 October, 2011

*See inside for more details...*

# Pentagon Series Mortice Lock

ASSA ABLOY

## Features and benefits of the Pentagon 3P72 Universal Locks:

- Ability to change lock function and handing without removing the lock from the door
- Easy in-door commissioning
- One universal cylinder cam performs all locking functions
- Australian designed and manufactured, the Pentagon Series Cylinder Mortice Locks are made from high quality materials to meet high durability and strength requirements
- 35 degrees of lever rotation required to fully retract latch and auxiliary bolt
- Elongated rose furniture fixing holes to accept 38 - 41mm screw pitch
- Includes through case fixing holes for cylinder and turnknob escutcheons
- Installation template tears out of the box

For further information, contact your ASSA ABLOY Representative or visit [www.assaabloy.co.nz/Pentagon](http://www.assaabloy.co.nz/Pentagon)

## RF800 Series

The RF800 Series is a range of square end brass plates designed for use with Lockwood mortice locks and is compatible with Australasian standard specification mortice locks.

The 173mm x 48mm x 12mm rectangular furniture plate is longer and wider than the Lockwood 1800 Series plate furniture and with 158mm fixing screw centres makes it ideal for retrofit or new installations.

RF800 Series plates with the Lockwood 70 lever are available to purchase from stock. The Tier 1 options of 20 Knob and 79, 83, 90 and 97 Levers are available MTO on a 2 day lead-time.

Available in standard brushed finish, Satin Chrome, plates are non-handed and levers can simply be reversed.

### Plate furniture options include:

- Cylinder Hole and Lever (external and internal)
- Oval Turnknob and Lever (internal only)
- Lever only (external and internal)
- Privacy Indicator, Emergency Turn and Lever (external only)
- Cylinder Hole only (external only)

## Mitre 10 and Bunnings Expos

**CONGRATULATIONS** to Michael Hill from Mega Nelson, Tracy Key from Mega Invercargill, John from Bunnings Silverdale, Leanne from Bunnings Botany, Dan from Bunnings Tory St, Michelle from Bunnings Palmerston North and Wayne from Bunnings Riccarton for installing Velocity in the fastest time in our Velocity Time Trial Competition!

# ASSA ABLOY Pull Strategy in Action at Auckland Home Show

Each year the Auckland Home Show hosts 45000+ visitors who come to catch a glimpse of the latest trends in renovations, building and home improvements.

ASSA ABLOY New Zealand had five days, fifty two hours and twenty five square meters of space to make our presence felt and we achieved it with the help of great products, dedicated staff and a bright, inviting stand.

The Marketing team set one clear objective for the Auckland Home Show and that was to build awareness of our company name and brands amongst end consumers. As part of a marketing pull strategy, we wanted visitors to our stand to walk away knowing that they have a choice when it comes to their window and door hardware.

“Protect your Home” was the theme for the ASSA ABLOY stand and it provided a great foundation upon which to showcase a range of products. From the tried and true in our portfolio to some of the latest innovations, it was all about keeping homes and property safe.

ASSA ABLOY staff proudly demonstrated the convenience of having keyless entry locks, with the Lockwood Nexion Vision and the 001 Touch on display. The Interlock Aria range of door and window hardware proved to consumers that they can achieve a consistent look throughout their home.

Our Protect Your Home Prize Wheel was a favourite attracting kids and adults alike. The combination of our Protect Your Home message and some good old fashioned fun really helped drive the message home. Another draw card was our “Yale Safe a Day” competition, which saw five lucky Home Show visitors win a Yale Home Certified Safe.

All in all, the Auckland Home Show was a great success and we look forward to taking our stand to the next level at the 2012 exhibition.

*1 and 2 “Protect your Home” was the theme for the ASSA ABLOY stand and it provided a great foundation upon which to showcase a range of products.*

## Who ate all the pies?

WIN a morning tea shout for you and your workmates (up to 10 people) by simply answering the question below.

**Q. What is the name of the three hub function settings of the Pentagon Series Mortice Lock?**

**Hint. You can find the answer on our website, visit [www.assaabloy.co.nz/Pentagon](http://www.assaabloy.co.nz/Pentagon)**

Send in your correct answers to Emily O'Connor at ASSA ABLOY Marketing before 31 October, 2011 to be in the draw for the morning tea shout. Fax: (09) 415 7222, Attention Emily O'Connor, Marketing or Email: [nzmarketing@assaabloy.com](mailto:nzmarketing@assaabloy.com)

**WIN!**

## Key Access to the Right People

ASSA ABLOY is proud to introduce the Yale Key Access storage box to our product portfolio.

With Yale Key Access there is no longer the need to leave doors unlocked or a key under the mat. The Key Access storage box provides protection for keys to ensure they only fall into the hands of the right people.

The wall mounted design incorporates a heavy duty body and secure, concealed fixings to withstand attack. The resettable 4 digit combination lock comes with a protective slide cover and is weather resistant for use inside or outside the home.

The Yale Key Access is easy to use and comes in an aesthetically pleasing black and silver finish. With a relatively large internal storage area, it can accept multiple keys if required.

Fixing screws and fixing instructions are supplied with the Yale Key Access storage box, which is available in display pack only.

For more information, or to order Yale Key Access (part number: SY500/187/1), contact your ASSA ABLOY representative or our Customer Services Team on (09) 415 7888.

## SL7000 Digital Lock

Securicraft®

The latest addition to the Securicraft Series Digital Lever Handle Locksets has taken off in the New Zealand market. The SL7100 (tubular latch) and SL7000M (mortice lock with deadbolt) have a range of new desirable features. Most noteworthy are the new easy code change keypad (patent pending), roller ball push buttons for increased security and clutch action on the outside lever preventing damage by attempted forced entry.

The SL7000 Series locksets are handing reversible and come with a 60mm standard backset. Furthermore, they can be switched to passage mode for free entry and exit providing the ideal solution for digital keyless entry.
