ASSA ABLOY

334 PADLOCK SERIES RANGE COMPLETE

ASSA ABLOY is excited to introduce the new Steel, Stainless Steel and Steel Case Closed Shackle Padlocks to its high security Lockwood 334 Padlock Range.

More on the 334...

The full range of Lockwood 334 padlocks is now available. The ideal choice for locksmiths, 334 Series Padlocks provide strength, convenience and versatility. Additionally, the range is suitable for a number of applications, including commercial and industrial.

Features and Benefits of the range:

- Double ball locking
- Extended shackle options available
- Standard snap shut locking function
- Can be converted to deadlocking (key retained) by simply relocating the cam plate pin in the cylinder assembly

334S45 Steel Padlock:

With a chrome molybdenum steel alloy shackle and solid steel case, the 334S45 is your ideal high security solution with added protection against attack.

334C45 Steel Case Closed Shackle Padlock:

The 334C45 offers even greater resistance to attack with its chrome molybdenum steel shackle enclosed within the solid steel case of the padlock.

334M45 Stainless Steel Padlock:

With the highest corrosion resistance rating, the Stainless Steel 334B45 padlock is the ideal solution for security in marine or other extreme environments.

334B45 Brass Padlock:

With comparable security rating to the Stainless Steel padlock, the 334B45 provides quality high security, corrosion resistance and convenience with its easy, rapid change shackles.

For further information, contact your ASSA ABLOY representative or our customer services team on (09) 415 7888.

Packset

Take Part in C.T.P.

ASSA ABLOY's Commercial Training Program (CTP) is the ideal introduction to an intermediate level training program for anyone working with door hardware for the commercial building environment.

The Commercial Training Program will provide:

- Hands on experience working with the products to perform common set-up and adjustments
- Practical experience working with product catalogues to resolve common questions and ascertain part numbers for specific products
- Important information regarding suitability of products to particular applications and information regarding standards, regulations and building codes
- Details of the key features and functions of the different product groups
- Overview of the installation process
- Overview of the range of accessories and options in each product group
- Opportunities for discussion with our trainers who have many years experience working with the product and marketplace

On satisfactory completion, participants will receive a framed certificate of completion from ASSA ABLOY and will have a good base knowledge of commercial door hardware to build on over their careers in the industry.

To find out about how to enrol, visit www.assaabloy.co.nz or call +64 9 415 7888

COMING SOON: ASSA ABLOY's Retail Training Program (RTP). More to come in the next issue of Hardware Matters.

WIN! Travel Vouchers

ASSA ABLOY BRINGS YOU LOCKCASE 2010

ASSA ABLOY is touring the country during October and November to bring you LockCase 2010.

LockCase 2010 showcases the latest developments ASSA ABLOY New Zealand has to offer and will inform you of our plans for products and services in the near future.

We will be visiting 11 locations around the country* and hope to see as many of you as possible. A number of new products will be on display and our staff will be on hand to provide relevant information and answer any questions you might have.

LockCase 2010 will run between 4.30pm – 7.00pm with light refreshments provided and travel vouchers to be given away. A great opportunity to catch up with your industry colleagues, you won't want to miss out!

If you're interested in attending LockCase 2010, please get in contact with your ASSA ABLOY representative for more information.

*Visiting: Whangarei, Auckland North, Auckland Central, Hamilton, Tauranga, Napier, New Plymouth, Wellington, Nelson, Christchurch and Dunedin.

LOCKCASE TWENTY TEN

One Key Fits All

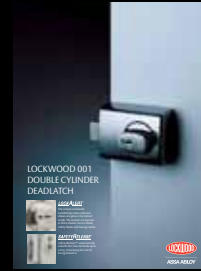

The CYL4™ cylinder was designed by ASSA ABLOY with the home owner in mind. With the ability to be keyed alike, you can keep your home secure with multiple window and door locks with only a single key on your key ring to access them all. Entrance doors, sliding doors, patio doors, patio bolts, window locks and even padlocks for your garden shed will all work with just the one key. The CYL4™ cylinder is also a more flush design, making it less obtrusive than other cylinders.

ASSA ABLOY, as the market leader in door and window hardware, take pride in their innovative New Zealand designed and made products. ASSA ABLOY believes in investing in local talent and keeping research and development in New Zealand as much as possible, which means they protect their patents seriously. As such, a patio bolt product released by a competitor, containing a cylinder similar to the ASSA ABLOY CYL4™ cylinder, was recently retracted from the market as the patent was upheld.

Products displaying this logo use the unique patented CYL4™ cylinder and can be keyed alike to other CYL4™ products in your home.
