ASSA ABLOY

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

“Freedom is the opportunity to make decisions”

ASSA ABLOY in brief

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

Since its founding in 1994, ASSA ABLOY has grown from a regional company to an international group with 30,000 employees and sales of around 7 billion NZD. As the world's leading lock group, ASSA ABLOY offers a more complete range of door opening solutions than any other company on the market.

ASSA ABLOY's vision

To be the true world leader, most successful and innovative provider of door opening solutions.

To lead in innovation and provide well-designed, convenient, safe and secure solutions that give true added value to our customers

To offer an attractive company to our employees

ASSA ABLOY's strategy

Customer focus - We focus on meeting or exceeding our customers' expectations with our products and services.

Product driven - We believe that the product is the driving force of our business and we develop innovative high quality products and solutions which are cost efficient.

Competent people - We believe that competent people are the basis for our continuous success.

Proud to be Kiwi made

Employing 220 Kiwis, ASSA ABLOY New Zealand Limited is proud to be part of the New Zealand Made initiative with the vast majority of our Interlock products manufactured right here in New Zealand. We choose to use local suppliers, supporting local businesses.

Market

In addition to maintaining a significant market share in New Zealand, ASSA ABLOY also export New Zealand made products throughout the world. Our high quality products are distributed to Australia, Asia, America, Europe, Africa and more.

Environmental Sustainability

ASSA ABOY New Zealand Limited is New Zealand's leading manufacturer of door and window hardware and conducts its business with high standards of integrity and concern for the environment.

ASSA ABLOY believes in responsible social and ethical behaviour and continuously seeks ways to reduce the consumption of resources, prevent pollution and improve the overall environmental impact from its operations and products. Globally, ASSA ABLOY is at the forefront of Environmental Sustainability and this focus and drive is reflected through ASSA ABLOY New Zealand.

Quality

ASSA ABLOY New Zealand Limited is a company which designs, manufactures, tests and markets high quality door and window hardware covering both the commercial and residential markets within the building industry.

Our Management System is designed to satisfy the requirements of ISO 9001:2008.

- With quality systems in place we endeavour to:
- Understand current and future customer needs
 - Deliver quality products, plus timely and cost effective service to our customers that exceed their expectations
 - A process approach to system management involving all our people

Our products

ASSA ABLOY offers security solutions drawing on the world's largest selection of locking products for a diverse range of applications and environments.

Door hardware

Residential to commercial locks, handles, door closers and exit devices

Window hardware

Stays, fasteners, electric operators and control gear

Additional security devices

Padlocks, window/door bolts and restrictors

Sliding door hardware

Surface mounted and mortice sliding door locks, folding and sliding door systems

Electromechanical and electronic locks

Electric and electromagnetic locks, strikes and bolts

Interlock

Before its acquisition by ASSA ABLOY in 2001, Interlock Group Limited maintained an enviable reputation as a leading designer and manufacturer of window and door hardware, offering technology solutions for customers in markets around the world.

Since the beginnings of Interlock in 1961, the company has built a number of highly successful partnerships with key customers, and has developed a number of innovative products, some of which continue to be sold in slightly modified form today.

Innovation

Interlock's dedication to innovation led to it capturing the New Zealand market within a short time after establishment. Over the years it has become the holder of over 300 patents and registered designs. This exciting spirit of continuous improvement still thrives today at ASSA ABLOY New Zealand Limited.

Manufacturing

In order to continue to achieve product quality and customer satisfaction at the highest level, ASSA ABLOY New Zealand Limited choose to maintain a full range of critical in-house manufacturing and finishing technologies.

Such technologies include hot chamber zinc diecasting, metal forming of aluminium and stainless steel, injection moulding of thermoplastics, tool design and tool making, in-line assembly, powdercoating, electro-phoretic coating and anodising.
